

WEDDING EVENT

GENERAL INFORMATION PACK

Congratulations on your engagement!

And thank you for thinking of our little garden oasis for your special day! We love the festivity of a wedding and so enjoy helping our bridal couple's bring their visions to life in our beautiful garden setting.

The Backyard Cafe offers a range of different catering options that can be tailored to the time, theme and style of your event, as well as the dietary requirements of your guests. These menu options will be discussed with you, in person, as we unpack the ideal catering solution for your wedding day.

We have an extensive array of hot and cold drinks that we can make available to you. As we are not licensed, we do allow our wedding parties to bring in their own alcoholic beverages, however, a corkage fee will apply to cover ice, range bowls, glassware, bar setup and service.

Any of our kitchen's extensive list of cakes can be reimagined into your dream wedding cake which will always taste just as good as it looks! We pride ourselves in producing delectable baked goods that are made from quality ingredients and baked with so much love. Should you wish to bring a cake in from elsewhere, a 'cakeage' fee of R150 would apply.

Our friendly team of staff are at hand and always willing to assist with the setup and break down of your event. Gabriela, our in house event coordinator, will run the team on the day and ensure that all of the finer details of your wedding are executed just as you'd imagined them, giving you total peace of mind on your special day.

We charge a venue hire fee for the exclusive use of our café space, which is charged at R750/hour for setup and breakdown of your event and R1000/hour for the duration of the event itself. A refundable deposit of R500 will secure your event date, whereafter 50% will be due 7days prior to your wedding day and the remainder is payable on the day of your event.

We can accommodate both the wedding ceremony and wedding reception in our cafe, with a maximum capacity of 85 guests. The garden itself is a very picturesque in nature and doesn't require much dressing, however, we do have certain decor items, including a wedding arch, that can be made available to you should you wish. We have a relationship with a preferred sound rental supplier who supply us with a PA system (with an auxiliary input), microphone and mic stand for events of this nature.

We are open to embracing the ideas and wishes of our bridal couples, but we do ask that these are environmentally friendly and do not damage our garden. For this reason, we do not allow plastic confetti and ask that any balloons used are biodegradable or compostable.

We are honoured that you've considered us for this incredibly special journey and look forward to the opportunity to bring your magnificent celebration to life with you!
